# Robinson's Patent Gridiron

AGAINST THE FRYING PAN! T IS A WELL-KNOWN FACT that meat broiled is much more palatable, tender, and healthful than when fried. All sheed meats ought to be broiled. The new Gridiron is as convenient as the frying Pan, and much more economical. Having a nownward dranght, it takes all the smoke and gas up the chimney, cooks the meat through in its own julces without burning it, saves all the fat, reduces meat bills fall as per cent., and can be used over a wood or coal fire.

Advertisements published in the morning paper TALL TRANSPERT ADVERTISEMENTS PAYABLE IN

WEDNESDAY .- - MAY 14, 1856.

NOW STHE TIME TO ADVERTISE. If you wish to command a fair share of our readers custom, now is the time to advertise. Spring is upon us, too, and everybody is looking around to find where they can bny to the best advantage. Don't expect them to go from one street to another. Hundreds have not time, and they read the advertisements in the Democrat and go directly to bay. If your advertisement is not in the Democrat, you may lose many chances to sell Hundreds read our paper every day. Our circulation in the city is increasing very rapidly, and in the country at an unprecedented rate.

The Democrat has the largest circulation west of the mountains among Democratic papers, and, at the present rate of increase, will soon have more were destroyed in the Mississippi River opposite subscribers than any paper published in the valley of the Mississippi. Our terms are moderate to prompt men. Every basiness man owes it to himself to increase his business as much as possible, and the best way to accomplish that end, is to ad vertlee in the Democrat, which is universally read in the city and country

Illinois Politics.

Some weeks ago the Hinduo papers were giving quite a broad circulation to a little paragraph headed "The Illinois Democracy in Trouble," which represented a split in the party as inevitable. The garment, it seems, however, was cut for quite a different personege. The Democracy held their convention some weeks ago, and made nomfunctions which have created the utmost outhusiasm throughout the State. Sam it was who was footed upon the anti-Nebraska platform, a pertion of his forces have gone off and joined the out and out N. ggor- Worshippers, believing that Sam conlin't even make a respectable race. The opposition will therefore have two tickets in the field for the State offi ces and to make the matter worse for Know Nothingtem, we are informed by the Missouri Republican, an Old-Liue Whig paper, that the "Oid-Line Whigs," of whom there are thousands left in the State, will, in all human probability, east their votes for the Democratic ticket. From present appearances, the Democracy will carry Illinois by a majority of forty thousand

Let Know-Nothings read the following from a late number of the Chicago Times, and sec what deadly weapons they placed in the hands of Louwville's rival cities on the sixth of August last. Let them remember, too, that they gave a new and keener edge to those weapons whou, through their Know-Nothing City Council, they indorsed the hellish deeds of the mob upon that day, and when afterwards the "American" party (God save the mark) proclaimed to the world that those acts were approved, and should be repeated when the occasion required it. The paper which made such a flurish over the return of one person to this by giving it a trial it will be found to be prompt oity was the Louisville Journal:

Some Longville papers are crowing over the rethen trum Chicago to that unfortunate city of on individual, and are beining it as an indication of the downtail of Chicago and the regeneration of Louisville. We have yet to learn that Roman Catholic Bishops, here or elsewhere, are required to take an oath to obey the Pope, and carry out his edicte and mandates, except in matters spiritual and occlesiastical. The Roman Catholic Bishops and members in this country do not owe, or profess to owe, " their bighest allegiauce to a foreign potentate" in civil matters, nor in feed any allegiance at all of that sort. If they did, we should condemn and oppose them for it. As they do not however, and as we have never admitted the truth of the allogation, we do not choose to hold them or faults which their relentices persecutors falsely charge upon them.

The Least Said, the Soonest Mended. There is much wisdom in this adege, especially when a man finds blimeel: lu such an uncomfort able dilemma as the Journal editor, in connection with the affairs of the Cincinuati and Little Rock State Company. Acting on this policy, Prentice affects to treat his agency in this infamous scheme

with a marvellous degree of indifference. We do not know that we have ever read the depublic, planned and adopted with a degree of cool-

nees and deliberation rarely equaled. It is to be feared that our neighbor lent too ready an ear to the seductive prospects held out to him by these wily schemers. It is certain, by his own admission, that to some extent he was concorned with these parties, and it my be of interlimited, in aid of so intamous a preject.

There is a curious quarrel going on in Indians just now, between the Black Republicane fashioushle and attentive audience lest night, and and colored Hudoos, or Know-Nothing papers. Both parties concede the triumph of the Demoelections on the Republican side, was directly opposed to the issues of the American party, as made

They are not, therefore, the defeated party. The black Republicans deny that the fight was theirs; and assert, positively, that these elections were conducted, in every instance, by Know Nothing organizations. The question seems to be, which party got the thrashing. Neither wants to achieve the seems to be, which party got the thrashing. We take it from the Cincippati Commer cial, which is far from having any leaning towards the Democratic party, and which has probably given a pretty fair version. It will be seen that the facts differ very materially from the telegraphic reports. We shall have further particuare by this evening's mail which we shall lay before our resders to-morrow, with such comments as we may think proper to make.

Some of the theatrical critics of the St Louis press bave got into a muss over actresses talls of a more villainous scheme to defraud the who have lately been playing there. To judge from the local columns of these papers, it would seem that the 'Green-Eyed Monster" is doing his work most heavely, and we should'nt be surprised at any time to hear that,"pistols and coffee for two" had been called for. The latest aspect of rempt to leave the place, and to hold themselves rempt to appear before the authorities this morn the absorbing question under discussion, is pre- ing. sented in the number of private calls made upon est to the public to know the consideration which each actress by each individual localizer. AFFRAY WITH THE GERMAN TURNERS.

MARSHALS BUTTS & HARVEY WOUNDED. The Turners' thait in Newport in State of Siege.

About six o'clock last evening, intelligouce suched this city that an affray had occurred in oving on, between the German Turners Associa-on and the Police officers, in which C. L. Batts, Marshal of Covington, and John Harvey, Deputy Marshal, were badly wounded. A repercer from rued the fact, as near at could he gleaned from na excited populace, to be about near as follows The Turners Association were celebrating an aniversary, on the hill side, below the elly, and while there were annoyed by a party of mischiev as bays, one of whom, a lad named Jackson, was denoted in partitions some of their provisions and was very roughly naudied by them. One re cort had it that he was wounded by a cut from a re, but we could not learn that ne was sorious Sabsequently, as the Turners were recording in a body to their Hall, when at the sopped by the officers whose names are mentioned e, and a demand was made that these who and assaulted the boy should to given it y. This was recused, and the officers attempted to make an arrest, when three or lour shots wer-fired by the lungers, and a ball struck Mr. Butte under the shoulder blade, it flotting a very severe out welearn not latal, would in the arm and side.
Mr. Harvey at the same time received a terrible sabre cut on the head, which chiqued off a small nece of the skull bone, leaving the brain exposed dis wound is considered necessarily mortal.

A large crowd of citizens was by this time atra ted to the spot, and the wounded officers were onveyed home. The furners preserved their line and marched towards the suspension bridge, which they crossed and proceeded to the Newport ferry anding with the intention of crossing to this city Some one, however, had preceded them on h r e back, and had intermed the captain of the ferry at the state of affairs, and who consequently re used to land his boat. By this time several nu tred people had congregated, some of whom pro cerded to the Newport Garrison and deminde their list of wants, and be ready at the hour that arms of the commanting officer, but which wa denied them. The excited populate toen com draws up on the landing in a line, when the lat e and the crowd reli bask. Two of the short were need by the furners, but without A parley ensued, to which a proposition part in the affray with the others, or as david establied the boy, should at once be given up neveral were pointed out, and immediately step ped out from the ranks and delivered thomselve

The erawd were in no wise appeared by the pagession, but demanded that the entire party gould lay down their arms and sorrender as priners. This the furgers retused to do, and slowly margned up the landing, and thence out Yorks street, towards the Hall of the Association, whi bis located on the Alexa dua Turnpike, abouts I'de citizens had mono but small arms with them or them had sabres—convequently, atthough the out air, which put out the lights.

Out zons outnumbered them two to one, their own three being not more than 80 men, it was not working a were in constant peril of comed prudent to altask them. An unsuccessful at empt was made, however, by the citizens to precure the arms of the Covington State Fencioles, and also a caudon, but the idea was subsequently abandoned. The Sheriffs of Campbelland Kentou counties, and other municious and ounty officers at length held a conference with that the Turners should remain under guard is the ball until morning, and then then they would currender to the proper authorities. A strong guard was then placed at the various entrance of the hal, in accordance with this proposition, and the m j rity of the crowd d spersed, a great meny of them very unwillingly, for they seemed to taink that the hall should be pulled down about their cars, and the members of the associa tion hung up to the nearest tree.

We have given this statement as it was stated our by those who seemed to have the best knowldge of the entire affair. It will be recollected. powerer, that it is but one side of the story, as no of the Turgers. The ca-o will undergo a legal investigation in Covington to-day.

LATER-FURTHER PARTICULARS. After ten p'eleck last night, the fire bells of Cov ngton and Newport rung an atarm, and apprehending further disturbance we proceeded to the seat an war. Along the street from the Newport ferry landing to the Turner's Hall, about a mile, were many small groups of excited individuals, and in the yard in front of the hall user a hundred perons, a large number of whom were poys, were collected, some of whom were awaring vengeages on the Germans, and discussing various projects of taking the hall. Some one created a stir by saving that a great crowd was on the way fr in Cwington wien a caonou; but this story was "out of whole cloth," we believe. Others and that two Germans had been canght carrying amountion we tresume was incorrect. An American Lig was anging on the staff above the Hall, and the propriety of making a prize of this was under con ration. But on the whole the crowd of outsiders did not appear to be dangerous, and there were
no strong apprenensions of time diste difficulty.
After the furiers had proceeded to the Hall,
Mayor Foley of Covington made his appearance,
and demanded that they should lay down their arms. Judge Stallo had been sent for by the Turners, and he informed the Mayor that the arms

would certainly not begiven up while there was a large and excited crowd making threats without-that sofficient assurances must be given the Ger mans that they would be protected, before they would trust their means of defence out of their hands. Col. Junes of Newport, also demanded that the Germans should surrouder, but received the same reply that had been given to Mayor

Judge Stallo and Col. Jones, however, after some conversation, hit upon a plan for an armis-tice. It was agreed that the Furners should stack their arms in the yard bank of t o Hall, where they should remain, within their reach, not to be uched unless an altack was made by the out siders, and that the crowd should be informed that the Turners had put their arms out of their hands. The Turners pledged themselves to make no at-On this being announced, the larger portion of the crowd slowly dispersed. Some remained behind, at the request of the Sheriff, as a guard. A few intoxicated, and other curious and excited individuals, also remained, and these, with a gang of boys, made up the body of outsiders, which in-

C." visited the gives a very interesting account of the accident. leatures; proscriptive, untair, and for fraudul We quote as follows:

The caving of the coel bank, by which they were shut in teck place two weeks ago last Friday, at about eleven o'clock in the morning. The day, at about eleven o'clock in the morning. men had gone into the bank very early i morning of that day, so that they have been shut out from light and pure air for nearly fifteen days. They had only one dinner, and after being stut up, found the dinner of another mar, who uses, with sixteen others, at great risk, barely es caped the catasuophe. It is not true that they awd on the lamp oil. They had but little of it. One of the men swallowed some of the oil to re-neve his throat, which had become very so elrom iricking the copperas water. So that the marvel remains of four persons record after two week's leprivation of food and water; and not in very bad

condition either, considering.
The excitoment consequent on this affair has been at the highest pitch all along the Muskinam, from Zinesville to Marietta. There has ver been less than five hundred persons ou the round-all wrenght up to the most intense agooy of excitement. On Sunday last there were ver two thousand prople at the scene. From very farm house along the roal, eager inqui ries are put to every returning visitor; and Zanes ville has been in an intense tever on the subject. The locality of the accident is on the west side of the Mn-kingum, in B ne Rock township, half a nile above what is called Coal Rus. The bank is wned by Mr Guthrie. The mouth of the bank s but a few feet from the river, and some twelve eet above the ordinary stage of the fiver. The ourk ope s into a hill that is some three hundred sect high; and when the bink gave way, the eaving extended into the hill about the same distance; that when the work of resous began the mer vere a hundred yards from sunlight in every di

The cause of caving was the unskillful manner u which the bank was worked. Instead of workng the vein, which was a four and a half feet vein to the ordinary width of about twelve feet, and aving at short latervals pillars of ten feet equare support the superiocumbent massif rock and arch -there were large rooms made and few pillers of, and those small; so that when the cia-h came which it did with a raport that sounded to the non like thunder, it fairly pulverized the pillars and orushed into fragments the rocks above. Upon he top of the hill there were found crevices w de aough for a man's leg; and peropptibly extending twenty or thirty teet down. Perhaps these evices supplied the men with pure air-and thus asbled them to support themselves with o imparive easo. The persons who were thus entombed are named digin, Savaga, Poarson, and Gatwood. Pearson an old man, and Savage a boy about 18 years. fus old man suffered mes, the boy least from ex-naustion. Elgiu and Pearson had families, who wore constantly present under an almost insane azony of mind. I'ne work of rescue was a herculeau work, bu

There were eighty men constantly laboring day and night, resteving cant man clower the further they went into the back; that since Sabbeth last not more than a foot while the l'uruers were mostly armed with rifles, an hour has been realized. And this progress was with long knives attached as bayonets, and some interrupted by the rock falling in, and by the im-

THE HESCUE.—Lest be known that these heroic workmen were in constant peril of their lives in all the fortnight's work. Of course they had propod up with timber as they worked in; bur at times, he timber bent like a reed under the immense pressure, and, at times, gave way. The frag-nentary condition of the rock prevented the workman from making themselves secure. They could not work without light, and when, on San-say, they had cut in 233 seet, and were about to despair, owing to the oad atmosphere and the nouncils of soins who thought it too late to save no mou—they took new vig r and new hope, and still pressed on until Frilay, when the attention t the workmon was arrested oy a knocking within. The next thing is order was to hold a converse on with the intombed. The first intelligible assion propounded by the insiders was:

"Was anybody killed by the caving?"
"None," said the workmon.
"Hurrahl hurran!" was heard from within This juvilee of the intembed was reported outside to the crowd, who responded to it by a spontaneous

burran of their own. It sounce that the men had picked their way ome twenty feet within the rocky fissure, and were enacted to converse pretty freely. The work-men warned them to retire within, as they were in immigent danger. Edgia said he would n't oudge till they told them what was the day and nour, and how long they had been shut in. The workmen told him that he had only been in a week; that it was briday—deceiving uim, as they supposed, for his own g od, and that of his compaulons. Edgin then told them to say to their ismalies and friends, that if they didn't get out, they were ready to die happily, having made their peace with God. Elgen then retired, exclaiming to the workmen most cheerfully:

Notwithstanding these men were thus imbedded in the earth, perhaps their preservation from death by hunger was prevented by that very fact. In the English mines, men have lived even sixteen days without food. The very want of light and days without food. The very want of light and directional tion of air, the moisture of their tomp, together with the lack of oxyg n to carry off the particles climinated from the body, may have had some effect in preventing that examination to sleep almost constantly. Prentice as a Decoy Duck. A few days since we published the facts relative the connection of Gro. D. Prentice with the Cincionati and Little It ok Slate Company, in which it was shown by the testimony of a principal witness, on the recent trial at Memphis, that Prentice was to receive a large sum for puffing the tetes of the Bink, and indusing the photic to be-ieve that the Company was solvent and the stock

good. We also published an extract from an article in the Louisville Democrat, in reference to the con-nection of Prentice with the Memphis and Little Rock Railroad, in which it was very plainly inti mated that he was in that case also engaged in

the employment of decoy duck.

Since the publication of that paragraph, a gentleman has placed in our pessession a handbill, is sued at Livilo Rick, on the 1st of January 128 signed by R swell Boobe, in which it is stated that the contractors of the road "had enlisted the services of Prenice-had given him an intere in the contract to scoure his aid in matters con nected with it resecution away from the work!" The outlie will remember that Pientice was it Little Rock for a long time in the fall of 1854that he was there tiguring as a lobby member of the Arkansas Legislature to procure the passage of some act connected with this road—that he got into a quarrel with a Mr. Hewson, was challen him, and did not fight. All these things are

Well known to the public.
Of this visit to little Rick in 1854, Mr. Beebe coal mines below Zinesville, were reached about says, that Prentice and others remained in Little seeno of the accident, and the Onio Statesman are monstrous and impracticable in some of their

This Memphis & Little Rock Road has an appro priation of lands by Congress to aid in its con-struction, which Mr. Boobe estimates at 20,000 arres. This land appropriation has been made the great lever by means of which the stock in this road was to be raised to a paying value, and a part of Prentice's dury was to chaporate this in his Journal. In reference to his course on this point Mr. Boebe says:

" In the early part of last spring, Mr. Prentice one of the parties interested in the contract, pub ished in his Journal an editorial article, greatly the depth of the ways and unrivalled ability of that company, and the ways and means provided to build the road. He says the company "own free and clear without cost 459,000 acres of land," and in speaking of the company's bonds, he says Certainly there can be no better securities the these, and we solicit for them the early attenties of capitalists. Every one of them, principal and interest, will be paid as it falls due, and us and be better than that." In alluding to president Williamson's last report (heased, no doubt, by in vith his part of the contract, he uses this very re markable language: "That the matters placed be fore us by this (Williamson's) report, as well a ther matters known to us personally, do m.s company to occupy a very high, if not the very nighest position, as to wealth and value, and pros peet of prosperity, which has been, or can he, hel-ny any road in the country." Discreditable and munnorized as that article was, in all its maju eatures, it was copied into most of the leading allroad journals of the day, and contributed, in h light degree, in misleading those who were unin lorined upon the subject."

These extracts show in some little measure the

part which Prentice has been playing in this Rail-road project, and it looks so much like his opera-tions in the Slate C inpany affair, that no person au read the one without being reminded of

Mr. Beebe further states, that while Prentice was thus ext.ling this road through his that its route was positively unsurveyed, and is pro-prets were of the most forlorn and gloom paracter. He says the whole affair is in ands of unserupulous speculators, whose aim not to baild the road, but to make the most money ut of a credulous community, and then to drop it ad leave their victims in the furca. Ot the statements made by this gentleman we

new nothing; nor do we pretend to inform nem, even so far as Prentice ls concerned. W give the purport of his handbill, and the extract oncerning Prentice, just as we find them. It is but fair to state, however, that Mr. Beebe is one of the wealthiest mou in Lettle Rock, and certainly seems to understand what he is writing about.

KNOW-NOTHING POPE IN TROUBLE -The Roch ester Union publishes a full report of a trial now ·u progress in that city, ln which Andrew J Parker is indicted for a rape upon Mrs. Sarah Davis, formerly of Syracuse, a young and hand some married lady, nineteen years of age, and was married in 1854. The Union thus describes the accused :

Mr. Parker has been for some years a resider of this city, and a foreman in the blacksmith sho f the Courtal Railroad. He is a man about forty five years of age, and has a family. He was to lounder of the Know-Nothing Order in this city and for a time was their collection. In this pecition he had acquired the title of " Pope Parker.
There was considerable difficulty and delay is procuring a jury, as the prosecution questioned everal who were called as to their membership in the Know-Nothing Order. The questions did not avail much, as the witnesses evaded answers, an while they did not deny membership, they pre-tended to have forgotten the nature of their obli gations to that Order. The jury consists of per sons, a majority of whom are known to be Know vothings.

LOUISVILLE.—This unfortunate city is runuin down as rapidly as Milwaukee is increasing i population, and this too, while every place in th west is unable to accommodate the many people docking into it. Why is this? Merely ou account of the Know Nothing outrages apout foreigners; on account of the murders, arons, etc., committed by those very pariotic men who want all America for Americans.

Now they begin to see how the thing works. These not of American birth, are selling their property and leaving the place, and the K. N.'s of Louisville stand a good chance of having all Louis ville for the Americans, and now that they do they dou't like it so much. When the Louisv emocrat alludes to the exedus of those of foreign ourth, and the consequent fall in the value Louisville property, and the hopes of Louisville's prosperity, those who inci ed the mebs to murder and arson, say, "ohl do n't talk of such things, you do our place an injury."

The injury was done when the murders and arsons were perpetrated.—Milwankee News.

Yue, writing from Bolivar country, hississippi:

A tremendous tornado passed over our country last night about midnight. The country has suffered much. The roads are blocked up by fallen timber, and the planters have to go to work and clear again, as their fields are filled with timber. The town of Napoleon has suffered much. Many louses are unroofed, and steamers injured in port. Houses are unroofed, and the unroofed

upper guards were blown off. A lady, Mrs. Weaver, was drowned during the tornado, and her body thrown upon the shore by the waves. A Mr. Watson, I learn, was also drowned in the storm. The rain was very hard and the wind terrific. Many wood boats were torn from their anchorage, and heavy chains suppod like thread It is now cloudy, and the wind is riving. I much fear we shall have a repetition of the storm. The steamers which pass are all more or less injured Many have their chimneys blown down or twisted badly.

A DEMAND MADE FOR U. S. TROOPS.

Ten or Twelve Killed. Covingron, May 13.

Yesterday the German Turners from Ciucinnat came over here to see their brethren in Covington and Nuwport. The occasion was one of an annual oelebration united with a presentation of a banner by the German ladies. As the Thrners were leaving the ground, half a mile back of Covington, a difficulty occurred between two boys, one a Turners made a violent assault upon the of the Turners made a violent assault upon the American boy inviting him expected with a contract of the Turners made a violent assault upon the LOUISVILLE, May 13 American boy, injuring him severely with a sa-bre. Information was sent to the Mayor of Covington and a warrant issued for the arrest of

the Turner.
Marshals Butts and Harvey attempted to make the arrest as the Turners were returning. Some words ensued, and they came to a melec. The Turners were all armed with knives and muskets loaded with ball, and in the melee some twenty shots were aimed at the marshals and those who were now helping them in the discharge of their duty. One Turner put his musket to Butts's back and coolly fired, the ball striking him in the right shoulder and passing out through his broast. Mr. Harvey was cut on the head with sabres and felled to the ground, where he was left for dead. The excitement became intense, and the Turners were not allowed to cross the river. They marched a 90:694, 1 at 930, and I had extra manufacturing ref soll at Nimith S.rect Warchouse by Motalit & Stent to Messars Bura- & Co., a new manufacturing outse f this city, at 9155.

Marshal Butts is doing better, but will probably lose his right arm. CONGRESSIONAL.

WASSINGTON, May 13. SENATE .- On motion of Mr. Fish the Secretary

of War was instructed to report to the Senate the estimate for the removal of the rocks at flurigate, New York, so as to admit of the possage of vesses of w r and the largest class of merchantmen, and such other aids to navigation as would render this passage safe. He gave notice that he would take an early opportunity to introduce a bill carrying out the above bject. The committee of couter-ence on the definency bill made a report, which was adopted.

Mr. Cass concluded his remarks commenced yes terday in regard to tue recout trouble in Kaneae Ho had not in the least weakened his faith in the great doctrine of the right of man to govern him self. He condemned the everlasting slavery ques ion which was gradually renewed with increased violense on the eve of a presidential election. The South does not meddle with the social system of the North, and if the North would follow its a xample we should be the happiest and most contented, as we are to-day, the freest nation on the face

HOUSE -Mr. Fuller denied on unquestionable authority the allegation that Mr. Buodanan was Chairman of the Committee which framed and reported to a meeting held in Laneaster, in 1819, a resolution denunciatory of the Missouri Compromise, and that he did not see them until printed during Mr. Pelk's administration. Mr. Bucannan proposed to extend the Missouri line to the Pa-cific, but in 1850 he declared that the compromise measures approached that line, which construction led inevitaury to the adoption of the principles embodied in the Kansas-Nebraska bill. Mr. Jones pointed with pride to the public life

of Mr. Buchanan, who had recoived the uncomiums of all true mational men for the pure morality of his life, and the stern patrictism of his character.—
The record of his Democracy was luminous, and would be carried by any attempt to delend it from attacks from any quarter. attacks from any quarter.

Mr. Fuller, of Pa., gave a Democratic journal in the northern part of that State, as authority for his assertion that Mr. Buchanan reported the

Laneaster Resolutions denunciatory of the Missouri Compromise. It was published in 1852. The House adopted the report of the Committee of Conterence on the deficiency bill, from which the \$300,000 for the continuation of the Washington acqueduct was stricken cut. Two hundred and twn thousand copies of the agricultural portion of the patent office reports were ordered to be printed.

Mr. Evans deprecated the fatal consequence to our nationality by the agitation of the slavery question. He invoked the South to stand from and in an unbroken palatax against the invadors of their constitutional rights. Adjourned.

New York, May 13. The Herald's Washington correspondent says:

"News reached here from Louden by the America's mails which is exceedingly important. The British first in the Gulf have no orders to interfere with Walker or his men at all. It is thought possible that the French fleet may do so.

"Mr. Marcy has received Charendon's long expected reply to the dispatch of Marcy to Buchanan, colling on the British Government to recall Crampton and Consuls Barclay, Rowerolt, and Mathews. Clarendon replies, that the British Government declines to recall the minister and Government declines to recall the minister and

Government declines to recall the minister and consuls. It is believed Parliament will sustain the Ministry in their defiant position, although the opposition have already commenced a ficient war upon Palmerston.

"The Cabinet has postponed the question of recognition of Gen Walker's Government until next meeting. The President has assured several of his friends that if the next intelligence from Niearagua shows that Walker is sustaining himself that Government will at once by recognized.

The Edie division of the American State Coun cil is in session to day, numbering about 60 delegates. A. W. Beneauct was chosen president pro is m., Thos. Carriste vice president, and F. L. Gifferd secretary. lord secretary.

After some preliminary business, the Council adjourned till this afternoon. The convention is in session with closed doors. The tweltth section wing predominates.

Owen's Hotel.

A that this well and favorably known Hotel is closed on account of the death of its late proprietor, this is to inform our friends and the public in general that such is not the case, but the business will be conducted by the family. Thunkful for the very liberal patronage heretofore extended, we hope, by strict attention, to the wants of our guests, to merit a continuance of the same. [avi6 daw] W.R. OWEN & CO.

Mammoth Cave, Kentucky. which is capable of accommodating 400 persons, is now moderacing at horough repair, and being refuted and furnished in a next and comfortable style. Persona desirous of visiting the Cave ouring the approaching season wil find the accommodations equal to those of the first-cass hotels.

The services of the old guides, Stephen, Mat, Nicholas &c., have all been accord.

The Cave will be kept in connection with the celebra ted stand, the "Bell Tavern," situated about 30 miles from Lonivvile, and about the same distance from Nashvile, on the Louisville and Nashville road, which can be reached by a faily line o stages run by Carter & Thomas to "Bell'a," I miles from the Cave, where conveyences will at all times be in readiness to convey visitors to the Cave.

The Cave is eitnated at a healthy and romantic spot on the banks of Green river, and has been explored in a direct ront over 9 miles, and through the various avenues more than 150 miles.

It would be impossible to describe the grandeur and beauty of the Cave. The proprietors feel justified in eaving that it is not equaled as a grand representative of nature by any other curiosity in the world, and they are well satirfied that a visit to the same will scil repay those who travel for pleasure or in search of the wonderful.

As our Pens are made to order, and bear our own name, our customers may rely upon them as superior to any in the market. We have also a large assortment of Fife's Patent (b) THE PROPRIETOR OFFERS

Dr. Price's Chronic Specific. THIS REMEDY CERTAINLY has more efficacy than any remedy ever offered to the silicted. This cannot be successfully controverted, as the evidence in its favor is so strong and weighty. We will not give a long array of certificates. We will give but fey and those shall be from gentlemen high in standing and widely known, such as llon. J. R. Underwood, Rov. Wm. L. Breckinridge, Judge Mm. V. Loving, Dr. Haggard, and Dr. PRICE'S GONTO SPECIFIC is the best Alterative, Tonic, and Blood Parifice ever compounded. It is adapted to cure Scrothia, White Swelling, Incipient Consumption, Female Diseases, Dyspepsia, General Debility. Rheumatism, Secondary Syphilis, Sore Kyes, and all Cutaneous Diseases, &c.

From Hon. J. R. Underwood. I have seen many of Dr. Price's patients afflicted with the Scrofnla, both before and after they were healed. It is certain that nicers of the most inveterate character seemed to yield readily to his Chronic Specific. I have seen many certificates in possession of Dr. Price, bearing testimony to his entire success.

Bowling Green, Ky. JOS. R. UNDERWOOD.

From Rev. Wm. L. Breckinridge A servant girl in my family was afflicted with Scrofulons Sore Eyes. Notwithstanding she had medicaltreat ment, npon the whole she grew worse, until I feared that she would become totally blind. She was placed under Dr. Price's treatment, and to all appearances a radical cure was performed. For several months past she has seemed to me, as she does now, to be perfectly free from any defect or soreness of the eyes, and to be in perfect health otherwise.

Louisville, Ky. WM. L. BRECKINRIDGE.

From Judge Asher Graham,
(Formerly a member of the Bench of the Court of Appeals). I have seen some of Dr. Price's patients. They appeared to havebeen very much diseased, almost beyond all hopes of recovery. They now seem to be perfectly relieved.

ASHER GRAHAM.
Bowling Green, Ky.

From Judge Wm. V. Loving, (The American Candidate for Governor). (The American Candidate for Governor).

I have seen several of Dr. Price's patients; amongs others, Mr. S. H. Dickerson, of Monroe co. At tha time I saw him he was disrased from head to foot. The left side of his face and neck was greatly enlarged and swollen. All of the left side of his neck, breast, and nghtshoulder were a masse of filtry disrases and run ning sores. As he would work his arms, the air would escape from deep nleers nnder his collar bonce, cansing filthy matter and blood to bubble out. The use of the probe had proved that some of these nicers extended into the hollow of the body. Mr. Dickerson put himself under Dr. Price's treatment, who administered his Othronic specific, and, strangeto tell, a permanent care was effected.
